

LOGITECH® TOUCH LAPDESK N600

Browse more comfortably—right from your lap

Facebook. Twitter. YouTube. Whatever you're checking out on the web, it's easier than ever to navigate with the first all-in-one lapdesk and multi-touch touchpad for your laptop.

FEATURE AT A GLANCE

Point. Touch and slide one finger anywhere on the touchpad to move the onscreen pointer for quick navigation.

Scroll. Drag two fingers up or down to easily scroll through a document or web pages.

Swipe. Brush three fingers left or right to flip through pictures or to go forward and back in your web browser.

The future of browsing

- Comfortable large (5-inch) built-in touchpad
- Multi-touch navigation makes web browsing smooth, seamless and easier than using your laptop's basic touchpad

Plug-and-play simplicity

- No cords, software or hassles
- Plug the Logitech Unifying receiver into your USB port and start navigating
- Go for up to 6 months without changing batteries*

Comfy stay-cool design

- Heat-shielding lapdesk protects you from laptop heat
- Anti-slip surface helps keep your laptop in place

All-in-one convenience

- The touchpad retracts to protect it when you're on the go
- Better navigation without extra cords and accessories to carry

Product description

100-word description

Logitech® Touch Lapdesk N600. Browse comfortably-right from your lap. The large (5-inch), retractable touchpad with multi-touch navigation makes it easier than ever to point, scroll and swipe your way through the Web. The heat-shielding design protects you from laptop heat so you browse in cool comfort. No cords, no software, no hassles. You just plug the tiny Logitech Unifying receiver in and start navigating. Plus, you can keep navigating for up to six months without changing batteries. And the anti-slip design helps keep everything from sliding around.

50-word description

Logitech® Touch Lapdesk N600. Browse comfortably-right from your lap. The large (5-inch), retractable makes it easier than ever to point, scroll and swipe your way through the Web with multi-touch navigation and one-touch controls.
